— #CEBioForum2022

App & B2B meetings

Through the app **CEBioForum 2022** you are able to arrange B2B meetings that are characterized by the ease of establishing contacts by quickly searching for potential business partners on the list of event participants. While searching you may take into account the type of cooperation sought to find your ideal shareholder.

B2B meetings are held only in face-to-face format and are appreciated for giving the opportunity to fully present the cooperation opportunity.

Positive effects of this type of meetings are long lasting as they enable building long-term business relationships and not only in an international manner.

dr Magdalena Kulczycka
Director of #CEBioForum2022

Ladies and gentlemen,

I am pleased to welcome you to the jubilee edition of CEBioForum 2022. After a two years break with mostly online activities, CEBioForum returns to the capital of Poland, with the 20th edition of the most renowned biotechnology event.

During this year's edition, I hope you will enjoy two days filled with: discussion panels on various topics from the life sciences industry, B2B meetings, BioTech Pitches, during which biotechnological companies will have a chance to present themselves. Last, but not least - we will reward outstanding projects and people with CEBioForum Awards 2022 in 7 categories.

CEBioForum will continue its mission in creating networking opportunities for scientists, investors, entrepreneurs and decision-makers involved in building up innovations in the biotechnology sector, as we believe this is a necessary element for effective brainstorming that contributes to the further development of biotechnology.

Thank you for being with us as partners, guests, participants and co-creators of this event and see you next year in April 2023!

agenda

#CEBioForum2022

first day agenda

Panel Sessions

25.05.2022 - day 1

MAIN STAGE - PLENARY HALL	
8.30 - 9.30	Morning coffee
9.30 - 10.30	Welcoming & Key note speech
10.30 - 11.00	Coffee break
11.00 - 12.00	Development & funding of biotech companies
12.00 - 13.00	BioTech pitch p.1
13.00 - 14.00	Lunch time
14.00 - 15.00	BioTech pitch p.2
15.00 - 15.15	Coffee break
15.15 - 16.15	Israel - from startup nation to exit nation
19.00 - 2.00	Banquete - celebration of 20th jubilee edition of CEBioForum

#CEBioForum2022

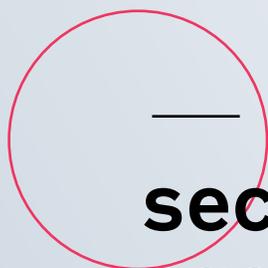

first day agenda

Panel Sessions

25.05.2022 – day 1

SIDE STAGE – EXPO HALL

8.30 – 9.30	
9.30 – 10.30	
10.30 – 11.00	
11.00 – 12.00	Green biotechnology in agriculture
12.00 – 13.00	Biotech market scene in foreign countries
13.00 – 14.00	
14.00 – 15.00	Career after biotechnology studies
15.00 – 15.15	Coffee break
15.15 – 16.15	SciFi – transforming scientists into R&D professionals

#CEBioForum2022

second day agenda

Panel Sessions

26.05.2022 - day 2

MAIN STAGE - PLENARY HALL	
9.00 - 10.00	Morning coffee
10.00 - 11.00	Innovation ecosystem in CEE
11.00 - 11.30	Coffee break
11.30 - 12.30	Biotech in personalized medicine
12.30 - 13.30	Lunch time
13.30 - 14.30	AI and its applications in biotech
14.30 - 15.00	CEBioForum Awards 2022 & closing ceremony

#CEBioForum2022

second day agenda

Panel Sessions

26.05.2022 - day 2

SIDE STAGE - EXPO HALL

9.00 - 10.00	Morning coffee
10.00 - 11.00	Digitalisation in BioBusiness development
11.00 - 11.30	Coffee break
11.30 - 12.30	Support4Biotech from Ukraine

CEBioForum Awards 2022

CeBioForum Awards is a prestigious competition for the life science industry aimed at appreciating biotechnology companies and people from Central Europe whose activities stand out from the entities of the life science sector. The contest aims to select the best or most innovative solutions or enterprises in 7 categories.

Between categories we distinguish:

p

Polish Clinical Trial

- This category aims in selecting a clinical trial sponsored by a Polish research-scientific entity , unit or company;

a

Anticovid19 Solution

- This category aims at selecting projects implemented in the life-sciences sector related to the development of products or services applicable in health care in connection with the COVID-19 pandemic;

b

Biodigital

- This category aimed at selecting computer solutions used in the development of biotechnology and biomedicine;

i

Innovative Start Up

- This category is dedicated to highlight young companies established after 01/01/2018 with promising commercializing project. We address entities whose activities are based on the implementation of, for example: an innovative biotechnological product, medical device or bioinformatics program on the market;

r

R&d Collaboration

- We want to appreciate project from life science sector where building bridges between research and entrepreneur worlds are fruitful and bring benefits to both sides;

m

Most Influencing Person

- In this category, the CEBioForum Award will go to a person who has a significant impact on the direction of biotechnology development in Poland;

j

Jury Award

- Out of all application in this contest our experts in the field will have the possibility to indicate the most interesting project based on their knowledge and scientific or business experiences.

#CEBioForum2022

The jury of the **CEBioForum Awards 2022** consists of:

**prof. dr hab.
Jacek Jemielity**
President at ExploRNA
Therapeutics

Aleksander Kłósek
Managing Partner in
YouNick Mint

**prof. dr hab.
Krzysztof Pyrc**
Professor at Małopolska

BioTalents Awards

This year, CEBioForum in collaboration with Celon Pharma S.A. organized a competition for students and Ph.D. students called BioTalents Awards. The aim of the contest was to identify the best talents among young people by assessing the innovativeness of their thesis. Participants had to prepare a poster about their thesis, and then jury was assessing all applications in order to pick the best candidates for live pitching in front of jury. Applications were evaluated on criteria: the innovativeness of the project, the course of research and work methodology, potential for further research and implementation potential. The best participants were pitching their 10 minutes presentations during online meetings with a jury composed of CEBioForum and Celon Pharma S.A. representatives. The winners of BioTalents Awards who get an internship in Celon Pharma will be announced on May 25 at 4.15 p.m. during CEBioForum 2022.

Key note speaker

prof. Noam Shomron

Tel Aviv University, Israel

"Genomics and the future of medicine"

25.05.2022 - day 1, 9.30- 10.30

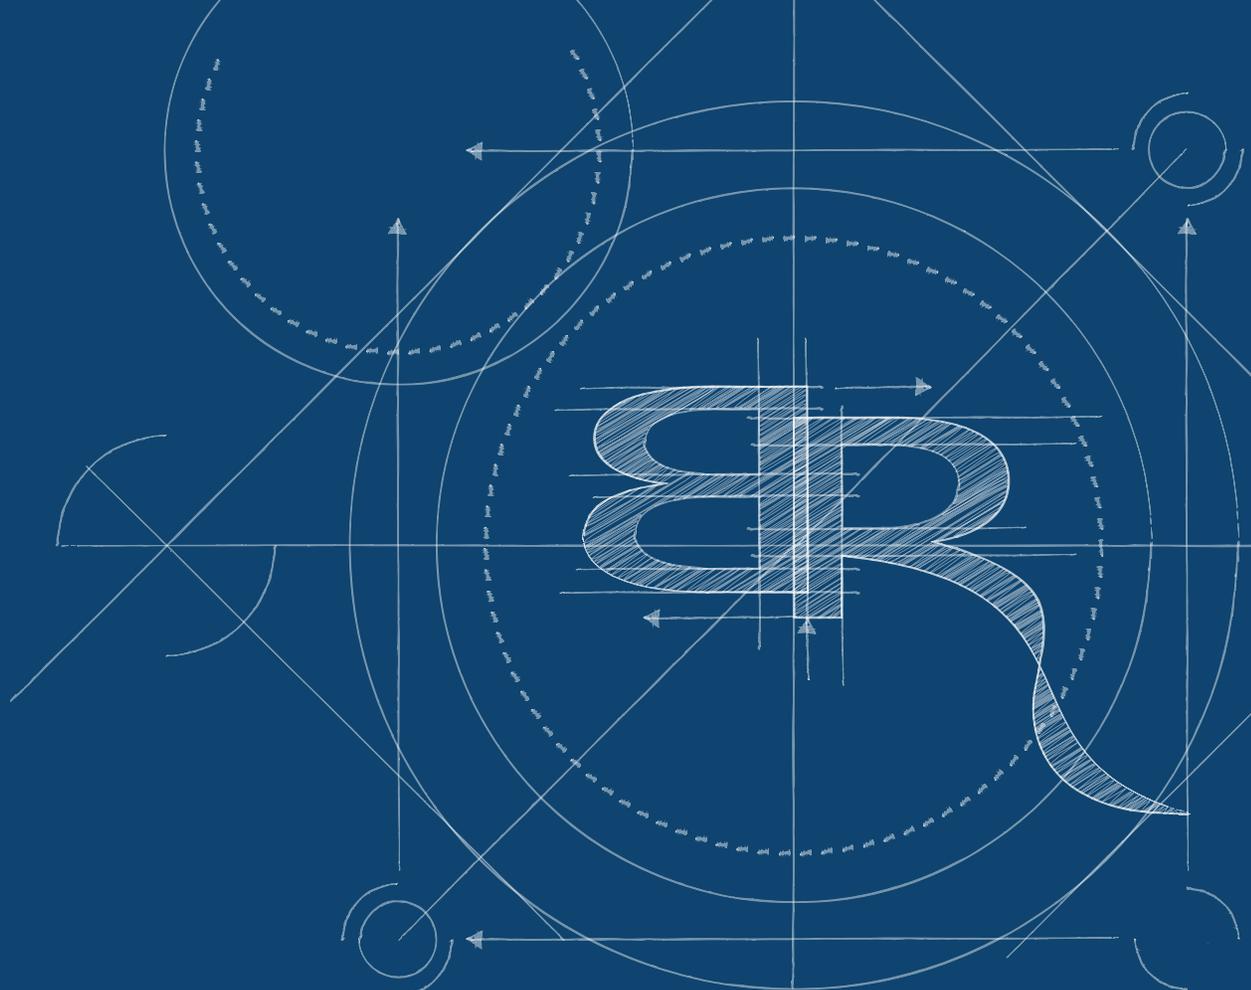

Professor Noam Shomron is passionate about using basic science to advance better healthcare. Prof Shomron heads the Genomic Intelligence Research Laboratory at the Faculty of Medicine at Tel Aviv University, after training at MIT. He leads a multidisciplinary team of scientists: biologists, physicians, computer scientists and bioinformaticians. The team develops computational methods for parsing molecular and big-data in the bio-medical field using Artificial Intelligence, successfully publishing hundreds of scientific papers and applying for dozens of patents. Shomron's aim is to deepen our understanding of diseases in order to translate information into clinical reality. Shomron is also the Editor of 'Deep Sequencing Data Analysis' book (Springer, Edition I and II); Director of 'Rare-Genomics' Israel; Director of the Djerassi Institute of Oncology; Academic Director of 'ScienceAbroad'; Head of the Digital Medicine Team at the Center for Innovation Labs at Tel Aviv University (TILabs); and, Co-founder and Chief Scientific Officer (CSO) of Variantyx, GotSho and IdentifAI.

The National Centre for Research and Development

The National Centre for Research and Development (NCBR) is a government agency that connects the world of science and business. It creates the right conditions for research and development (R&D). By co-financing R&D processes, it supports domestic entrepreneurs, significantly reducing their business risk accompanying the implementation of breakthrough research projects. The mission of NCBR is to implement tasks serving the social and economic development of Poland and to solve specific civilization problems of its inhabitants. NCBR implements a number of national and international programmes in areas such as green deal, artificial intelligence, medicine, biotechnology, as well as projects related to state security and defense.

In the years 2008-2021, we allocated over PLN 70 billion to support R&D works of Polish enterprises, startups, universities and research institutes.

The activities of the National Centre for Research and Development are characterized by three components: 'Risk', 'Balance' and 'Result'. Our horizon is not a race, how many contracts we will manage to sign, but constant monitoring of how much the Polish economy will gain from their implementation, and indirectly every citizen.

The National Centre
for Research and Development

THE FUTURE IS HAPPENING HERE

gov.pl/ncbr

Panel title: Development & funding of biotech companies

Date: May 25, 2022

Place: MAIN STAGE - PLENARY HALL

Time: 11.00 - 12.00

Moderator: Magdalena Kulczycka - Director, CEBioForum

Topics covered: The Biotech business is one of the most attractive markets, but at the same time very specific when it comes to development. During this panel we will talk about many obstacles that companies come across as well as about reducing issues with funds or programs at various levels e.g. governmental, private equity or EU.

- Speakers at the panel session:**
- > **Adam Pietruszkiewicz** - CCO, Mabion
 - > **dr Michał Polański** - Director of Entrepreneurship Support Department, PARP
 - > **Piotr Grzegorzczuk** - Co-Founder & CEO, COVID Genomics
 - > **Łukasz Kościjańczuk** - Partner, CRIDO
 - > **dr Jakub Kaczmarski** - Deputy Director of the Department of Research and Innovation, Łukasiewicz Centre
 - > **dr Magda Marciniak** - Director, Business Development & Alliance Management
 - > **Ksenia Wójcik - Karasiewicz** - Expert, Advanced Research Projects and VC Investments Office, NCBR
 - > **dr Maciej Wieczorek** - CEO, Celon Pharma
 - > **dr Nikolaos STAMOGIANNIS** - Project Manager, European Innovation Council and Small & Medium-sized Enterprises Executive Agency (EISMEA)

Partner of the panel session:

Panel title: Green biotechnology in agriculture

Date: May 25, 2022

Place: SIDE STAGE - EXPO HALL

Time: 11.00 - 12.00

Moderator: Jakub Styczyński, Dziennik Gazeta Prawna

Topics covered: Climate change is contributing to the fact that losses in the agricultural sector will increase. Humanity will have to face this problem and biotechnology can give a really wide range of possibilities. During this session, it will be discussed how biotechnology can be used in agriculture not only in the context of GMO crops. Speakers will also raise a topic about its correlation with governmental strategy in farming and whether there are any connections especially in context of the European Green Deal. They will answer the question if there are any particular chances where biotechnology may facilitate this program.

Speakers at the panel session:

- > **Nina Dobrzyńska** - Director of the Department of Breeding and Plant Protection, Ministry of Agriculture and Rural Development
- > **prof. dr hab. Jean Bernard Diatta** - Expert, Biostra
- > **prof. dr hab. Jarosław Dastyh** - CEO, Proteon Pharmaceuticals
- > **prof. dr hab. Marcin Filipecki** - Dean of Faculty of Biology and Biotechnology, Warsaw University of Life Sciences

Panel title: BioTech pitches part 1

Date: May 25, 2022

Place: MAIN STAGE - PLENARY HALL

Time: 12.00 - 13.00

Topics covered: Session with 5 - minutes presentations of institutions and companies from all over the world!

Let's listen to their offer and find possibilities to cooperate.

- Speakers:**
- > **Adam Pustelnik** - City of Łódź
 - > **dr Monika Ślęzak** - PORT Sieć Badawcza Łukasiewicz
 - > **dr Maciej Guzik** - Jerzy Haber Institute of Catalysis and Surface Chemistry
 - > **dr Piotr Ciochoń** - Solaris
 - > **Witold Konopko** - Port Polish Center for Technology
 - > **Katarzyna Tkocz** - Rentschler Biopharma SE
 - > (not determined) - PQE
 - > **Albert Blahunka** - Soneas Chemicals Ltd.

Panel title: **Biotech market in foreign countries**

Date: May 25, 2022

Place: SIDE STAGE - EXPO HALL

Time: 12.00 - 13.00

Moderator: Krystian Gagoś - Consultant, Medi Ventures Fund, Life Science Innovation Fund

Topics covered: Development of biotech companies is very specific from marketing and financing perspectives - we all agree on that. But are there any differences in marketing strategies for entering foreign biotech markets? What are the bottlenecks in this process? How to find business developing partners? Does the strategy differ between biotech-related sectors?

- Speakers at the panel session:
- > **Robert Florczykowski** - Partner, Third dot
 - > **prof. dr hab. Marcin Drąg** - Head of Department of Chemical Biology and Bioimaging, Wrocław University of Science and Technology
 - > **dr Oleh Syarkevych** - Supervisory Board Member, JSC Farmak
 - > **Mateusz Sagan** - Chief Operating & Business Officer, SDS Optic S.A.
 - > **Tomasz Wrzeński** - Vice-President of the Management Board, Blirt

Panel title: BioTech pitches part 2

Date: May 25, 2022

Place: MAIN STAGE - PLENARY HALL

Time: 14.00 - 15.00

Topics covered: Session of 5 - minutes presentations of institutions and companies from all over the world!

Let's listen to their offer and find possibilities to cooperate.

- Speakers:**
- > **Ghandi Yacoub** - Al Hikma Group
 - > (not determined) - Astra Zeneca
 - > **dr Krzysztof Potempa** - Braincures
 - > **dr Joanna Lipner** - Pikralida
 - > **dr n. med. Klaudia Szklarczyk-Smolana** - Intelliseq
 - > **Piotr Cioch** - Endolink
 - > **Karolina Makovskyte** - CasZyme
 - > **dr n. med. Piotr Byrski** - Molecule.one

Panel title: Career after biotechnology studies

Date: May 25, 2022

Place: SIDE STAGE - EXPO HALL

Time: 14.00 - 15.00

Moderator: Karolina Jarosińska - CEO, ExecMind, Life Science Executive

Topics covered: What is the best way to manage your career? What opportunities are open to young biotechnologists? How not to get lost in these many possibilities and find your way? In this panel key competences of candidates and employees related to the biotechnology industry will be discussed. Speakers will give advice on how to look and apply for a job. In addition, young people will be able to hear about the role of HR departments as specialists not only in recruiting candidates, but also supporting candidates in their career decisions.

Speakers at the panel session:

- > **Mariusz Popin** - Senior Manager, Life Sciences Divisions, Hays
- > **Tomasz Wrzesiński** - Vice-President of the Management Board, Blirt
- > **Alicja Kryczalo-Lara** - Talent Attraction Head, Polpharma Biologics
- > **Maciej Rugała** - Biotechnology Student
- > **Justyna Żółtek** - HR Director, Ryvu Therapeutics

Panel title: Israel - from startup nation, to exit nation

Date: May 25, 2022

Place: MAIN STAGE - PLENARY HALL

Time: 15.15 - 16.15

Speaker: Yossi Bornstein

Topics covered: Israel has 9 Million citizens only, and during the last decade became to be one of the most successful country in the world in R&D, Technologies & Innovations. What made Israel to be the “Start-up nation”? What is so unique at the Life Science Eco-System and society & culture in Israel? These questions and many more will be addressed during this interesting presentation by Yossi Bornstein, one of the pillars of the Biomed industry in Israel and the Founder & CEO of Shizim Group.

Panel title: SCI FI program - transforming scientists into R&D professionals

Date: May 25, 2022

Place: SIDE STAGE - EXPO HALL

Time: 15.15 - 16.15

Moderator: Agnieszka Czura Vice Director of CEBioForum
Biotechtalents.com

Topics covered: Panel "SCI FI program - transforming scientists into R&D professionals" will focus on specific programs that enable the development and growth of competences of potential candidates. Moreover speakers will present how to facilitate finding a job after studies related to life sciences and programs promoting a career in the life sciences.

Speakers at the panel session:

- > **dr Marcin Ciszewski** - PhD, Head of the Department of Acceleration Projects, Medical University of Lodz
- > **Aleksandra Sabiniaz** - Research Operations Director, Ryvu Therapeutics
- > **Martyna Strupczewska** - ADAMED SmartUP program manager, Adamed Foundation
- > **Martyna Czerniakowska** - Action Line Leader, , EIT Food RIS Fellowships
- > **dr Robert Dwiliński** - President, PACTT Foundation

day 2 / MAIN STAGE

Panel title: Innovation ecosystem in CEE

Date: May 26, 2022

Place: MAIN STAGE - PLENARY HALL

Time: 10.00 - 11.00

Moderator: Kazimierz Murzyn - Managing Director, Klaster
LifeScience Kraków

Topics covered: Invited speakers will give us some highlights of how innovations are being developed by institutions from neighboring countries such as : Ukraine, Lithuania or Czech Republic. We share similar histories, similar time of free market and time to develop innovation development mechanisms. Are we at the same spots today? What mechanisms to create innovations and commercialize them are used in countries with similar historical background?

Speakers at the panel session:

- > **dr Vojtěch Nosek** - CEO and co-founder, UNICO
- > **Virginija Kargytė** - Deputy Director of Bioeconomy Research Institute at Vytautas Magnus University Agriculture Academy; Board Member and Vice President of the Lithuanian Biotechnology
- > **Ivan Kulchytskyy** - President, Agency of European Innovations

Panel title: Digitalisation in BioBusiness development

Date: May 26, 2022

Place: SIDE STAGE - EXPO HALL

Time: 10.00-11.00

Moderator: Bartosz Sokoliński - Director/ Aerotropolis & Development Subprogramme Implementation Department, Centralny Port Komunikacyjny

Topics covered: Digital transformation is reaching out to every possible industrial branch. This panel session analyzes the benefits and application of digitalization in case of biotechnological companies. Does it only help in monitoring flow of the documents in certification processes? Does it influence the production flow? Or maybe it enables development of new solutions that can benefit all of us?

Speakers at the panel session:

- > **Martin Radecki** - Managing Director, Vector
- > **Krzysztof Szulc** - Chief Specialist, Department of Strategy & Innovation, Grupa Azoty
- > **Grzegorz Kaszyński** - Vice-President, Sygnis SA
- > **Anna Mistewicz** - Board Member, Head of HR, Angelini Pharma Polska
- > **Julian Malaka** - senior training specialist, Future Industry Platform

Panel title: Biotech in personalized medicine

Date: May 26, 2022

Place: MAIN STAGE - PLENARY HALL

Time: 11.30-12.30

Moderator: Krzysztof Mędrala - CEO MedApp S.A.

Topics covered: Is it possible for every person to receive personalized therapy tailored to their needs and genetic profile? Despite the sequencing of the human genome and many years of research into human genetics, the implementation of scientific achievements towards personalized medicine is not visible on the horizon. What are the reasons for this? Is it a matter of formal procedures? Or maybe a lack of validated biomarkers? or maybe you need a system solution? What actions are being taken in this direction in other countries and in different companies?

Speakers at the panel session:

- > **dr Tomasz K. Wojdacz** - Associate Professor, Head of Independent Clinical Epigenetics Laboratory Pomeranian Medical University in Szczecin
- > **dr n. med. Artur Zaczyński** - Deputy Medical Director, Central Clinical Hospital of the Ministry of Interior and Administration in Warsaw
- > **dr Marcin Piechota** - CTO & Co-Founder, Intelliseq
- > **Sławomir Gadomski** - Deputy President for Research Financing, Medical Research Agency

Panel title: Support4biotech from Ukraine

Date: May 26, 2022

Place: SIDE STAGE - EXPO HALL

Time: 11.30-12.30

Moderator: Magdalena Jabłońska - CEO, MIT Enterprise Forum CEE

Topics covered: The most up-to-date panel on which speakers will discuss how to deal with issues that currently affect enterprises. They will talk about the market situation in Europe and Poland in the face of war. Speakers will debate about a new post-war reality in Ukraine, how cooperation relations with companies from Russia will look like, where diversification of companies' activities will lead, as well as the direction of development of Ukrainian companies in the context of internationalization. Furthermore the labor market will be considered in aspects of long-term programs and temporary employment.

- Speakers at the panel session:**
- > **Tatiana Nesterenko** - Strategic Business Development Manager Quantum
 - > **dr Maciej Maryl** - Director, ScienceForUkraine Institute of Literary Research of the Polish Academy of Sciences
 - > **Piotr Placha** - Manager in Export Center PAIH
 - > **Ksenia Belkina** - Founder&CEO Cardiomo Care, Cardiomo Europe BV
 - > **dr n. med. Maciej Plebanek** - Medical Director IM Medical Lead Poland, Pfizer Poland

Partner of the panel session:

Panel title: AI and its application in biotech

Date: May 26, 2022

Place: MAIN STAGE - PLENARY HALL

Time: 13.30-14.30

Moderator: Urszula Sankowska - COO MIM Solutions

Topics covered: Increasing amount of data is being clustered, analyzed and used... for what purpose? How can we all benefit from development of faster computing systems or implementation of AI algorithms? Special case is the amount of data "produced" by the healthcare system during patients' diagnostics based on novel molecular techniques is constantly increasing and the question is how we can benefit from their analysis? What is the current role of AI in biotechnology and how will artificial intelligence change this sector?

Speakers at the panel session:

Partner of the panel session:

- > **Paweł Kuśmierowski** - partner associate, Life Sciences & Health Care, Deloitte Digital
- > **dr Tomasz Pilewicz** - Principal Consultant and Gaia-X stakeholder, Philips Polska
- > **dr Richard Fox** - CEO, DioMEDe Sciences
- > **dr Marcin Piechota** - CTO, Founder, Intelliseq
- > **dr hab. Katarzyna Kolasa** - VP/PAREXEL, Health Economics Big Data Master Program/Kozminski University
